First Father is Cured of an Eruption that Burned and Itched Day and Night. Then Baby is Cured of a Distressing Rash.

Neighbors Pleased to Find a Sure Cure for Skin Afflictions.

"I suffered for eight years with what the doctors called the 'seven year itch.' This was like small red pimples such as form on the face but they burned and itched, day and the face but they burned and itched, day and night. These pimples were from my ankles up, but mostly on my thighs and arms. I tried doctor after doctor but their medicines brought no relief. But at last I struck the right treatment—this was Cuticura. I bought a set of the Cuticura Remedies—Cuticura Soap, Cintment and Pills—and a few applications brought relief. When I had used about half the set I was nearly cured and after using two full sets I was well and best of all, I have stayed cured. have stayed cured.

"About four months ago, our baby began to be covered with a rash and his head with a spreading sore. Back of the ears, the flesh cracked open and the poor baby would scratch till it bled. He worried, cried and could not sleep. Then we bought a set of Cuticura and with a few applications the burning and itching ceased, baby stopped worrying and could-sleep. When this single set had gone we had no use for any more as baby was never troubled with the disease again. The neighbors who saw the condition of the baby all asked what cured him and when we told them, they were surprised and pleased to find a sure cure for these skin afflictions. Edward H. Carter, 323 North 37th St., Camden, N. J., Mar. 6, 1910."

437 25th St. in Ogden yesterday,

COUNCIL AMENDS MAYOR NAMES

At the meeting of the city council last night three amendments to the city ordinances were considered. passed the first and second reading and were referred to the law committee and the city attorney. The amendments provide that express wagons drawn by two horses shall pay a license tax of \$6 a year, a one-horse express outfit shall pay \$5 per annum and a passenger car propelled by its own power shall pay \$12.50 per year; parties selling refreshments from a wagon, street or sidewalk stand shall be taxed \$10 a month or \$5 a day; dealers in second-hand goods will be required to pay \$50 each year rather

Plank Headers Over Car Tracks. The railway committee reported that the city is not concerned about plank headers along the railway and street car tracks, that being a matter altogether in the hands of the railway people themselves. The com-mitteee recommended that nothing be done in relation to the communication from the city engineer about the "headers" on Washington avenue. The report was unanimously adopted.

The street committee stated that it was the sense of the members of that body that the estimate for the Moran company for work done on Canal alley, known as paving district No. 101, be allowed. The report rehearsed the fact that the work on the alley had been completed, and that it was in good condition. The other members of the council concurred and the estimate was allowed.

No Protests Against Sewer. The board of equalization for pav-ing district 102 and sewer district 108 reported that there were no protests except one against paving district 102, and that in that instance the party protesting was considered by the board to not have the right to protest, and the board recommended that the work be carried on as originally con-templated. The report and recom-

mendations were adopted.

The city engineer reported an estimate due the J. P. O'Neill company for the work done by the company in making the concrete waterway and intersection for Orchard avenue and Twenty-fifth street, amounting \$582.97, and the same was allowed.

Bateman & Doyle, contractors, were allowed \$12.67 due for sidewalk repair-The engineer also reported that there was due the J. P. O'Neill company \$203.51 for making a crossing on Canal Alley, near the Ogden laundry, on Twenty-fifth street but the council thought it best to give the estimate
a little consideration, so the matter
was referred to the sidewalk committee.

Manholes in Sewers. The engineer recommended that the manholes in the sewer districts be placed at the street grade, stating that it would cost in the neighborhood of \$2 for each one. The matter was referred to the street committee, The engineer submitted the final es timate of McKay & Read for the placing of drain pipes on Madison avenue, the amount being \$433. The consideration of the matter in detail was given to the sewer committee.

The claim of the J. P. O'Neill company for \$165.10, alleged to be due for

certain work in curb and gutter dis trict 102, was allowed.

The dog tax collector was allowed \$17 as compensation for the capture The city treasurer was authorized

to employ John Walker to do extra work in the treasurer's office during the time of the rush in the matter of The per diem is caltax collections. culated to be \$2.50.

Pay Rolls and Claims, The auditor submitted pay rolls amounting to \$2 932.37, and they were allowed and ordered paid.

The regular pay rolls of the water works department amounted to \$772.65, and they were ordered paid. The auditor was instructed to draw warrants for the amount.

Light and Water at Hospital. A petition from the directory of the Thomas D. Dee Memorial hospital, asking for the establishment of arc light and a water hydrant on the grounds of the institution, was grant-ed. The light will be placed at Twenty-fourth street and Harrison avenue. Councilman Wilson voted against the

granting of the petition.

George Frye petitioned the council to transfer his license for the operation of the Globe saloon on Twenty-fourth street, between Washington and Grant avenues, to Bryon A. West, to whom he has sold the business. The matter was referred to the license committee and the city attor-

Third Ward Wants Arc Lights. The petition of citizens of the Third ward that are lights be placed on Adams avenue and Third and Fourth was submitted to the light committee for consideration.

On motion of Councilman Austin, it vas ordered that the Fire department take down the wiring extending from the sides of the avenue to the center, along Washington, from Twenty-fifth to Twenty-seconds streeets, so as to enable the Utah Light & Railway company to remove its poles from the center of the avenue. The council then adjourned.

Only One U. S. Inspected Establishment in Ogden

Notwithstanding statements to the contrary by certain proprietors of lo-cal meat markets, there is no place n Ogden-neither meat market no slaughter house nor abbatoir-where government inspection is exercised, but at the establishment of the Og-den Packing and Provision Co. Here the government has three officials stationed to protect the public against diseased and unclean meats. All of the meats from this establishment carry the little, blue government in-spection stamp and no meats are govpernment inspected unters this stamp appears on them. Look for the stamp on the carcasses as you enter your meat market. You can easily tell. I your market does not handle U. Inspected meats go to some market where they do. It is always safer to trade where U. S. Inspected meats exclusively are handled.

SORENSON FILES ANSWER IN COURT

In the Hudson avenue condemna tion suit, Carl Sorenson has filed an answer, alleging that his property used for the opening of the avenue is worth \$1,000 per front foot, on Twen-ty-fifth street, and that he has sustained \$1,200 damages in the destruc-tion of property and \$180 for having been evicted from portions of premises.

BULLION TAXES OF WHITE PINE COUNTY

Aside From the Nevada Con., Output From County Is Rather Limited.

Reports of ore productions in White Pine county for the third quarter of this year ending September 30 have been filed with the assessor by the various companies operating in the county. But four reports have been received besides the one from the Nevada Consolidated, which, of course, produced a great deal more than all the others combined.

The Glasgow and Western Explora tion company, operating the Star mine at Cherry Creek, reports having ex-tracted 3,393 tons of a gross value of \$8,675.92, most of which is presumed to have come from the old dumps that are being put through the new mill recently erected. The Ely Consolidated Copper company reports only 21,065 tons valued at \$652.36. From the Isaacs mine belonging to the Copper Mines company 32,283 tons were mined that were worth a total of \$289.29. The April Fool mines of the Red Hills district are reported as having produced fifty tons of ore of a gross value of \$2,200, from which the net profits amounted to \$500. The owner, August Deitlar, will pay bullion taxes on that amount. in the concentrates and secondaries Production of the Nevada Consoli-dated was 99,146 tons less than the on hand that cannot be ascertained or recovered until they are smelted durprevious quarter, but the valuation of the output was only \$175,007.46 less. The cost of extraction is given as ing the next quarter.-Ely Expositor.

AN ADVERTISEMENT By D. DECKER

The highly colored and beautifully designed ads of the magazines are as much sought after by the public as are the big lions and tigers by the small boy looking for the circus. Only a few years ago we used to pay 25 and 50 cents for a magazine, but that was be-fore the era of ads when they were lank and lean. Today our magazines have grown corpulent with the fattening of artistic ads, and cents for them.

\$500,00 for a page! Does it pay you ask? Oh, yes, it pays, or the ads would not be there. Do the big displays in our home papers pay? Yes, for the public are always looking for the best advertisements and are always shy of a little cramped ad. The magazine ex-ments and are always shy of a little cramped ad. The magazine ex-cells in display and often for this reason people send their orders away to the magazinue advertising firms. Be not deceived by red ink and handsome pictures. The goods will not look any better or be of more value than those offered by our local merchants. Perhaps you have been reading in the magazines about the systems for heating gas. There are several of these used before sending for a heatyou might do well to call on us and get our experience with the many devices for heating water.

It is to our mutual interest to help the consumer select something suited to his requirements. We can tell you about high pressure automatic heaters, instantareous heaters and kitchen boiler heaters; all are useful and have their specific purposes. Heating the water is an important necessity in household economy, and if you start right and get that which meets your ideas, you can only say to your friend that gas is the only thing.
